	<p>Jonathon is making good progress. He is working at the Advanced Year 4 level and is coping very well. He is developing a much better understanding of applying the mathematical concepts to his problem solving. Jonathon is proficient with his mental calculations but his written workings are often poorly presented and will need to improve this part of his work if he is to maintain the good results to date.</p> <p>Jonathon is a pleasure to teach and has certainly put in a good effort this semester. Well done Jonathon!</p>

Teacher Comment:
Jonathon did not show much interest in playing the recorder. He should understand that the principles of music are the same for any musical instrument. I expect a better result should he make a greater effort next semester.

General Comment

Comment:

Jonathon is making very good progress. He is working at the Advanced Year 4 level for mathematics and is coping very well. Jonathon interacts well with his peers and is willing to help others. He is very proficient with his work, but would benefit from ensuring more time/effort is put into the presentation of his written work.

Joanthon is a pleasure to teach and has certainly put in a good effort this semester. Well done!

Principal:
